A Welcome from the BTBA Chairman

For many years, the Registration Desk has been the first opportunity for me to express words of welcome to participants in the National Championships, but this year in my capacity of, Chairman, I have the pleasure of being able to record my delight at seeing the Tournament so well supported.

It has been very rewarding to watch this event gain in momentum with each passing year, and I know that a great number of friendships have been made and will continue to flourish when bowlers from all over the country meet 'at the Nationals'.

I have no doubt that 1996 will be remembered as another successful event and would like to convey my very sincere thanks to our hosts, FIRST LEISURE for the hospitality we have all enjoyed, not forgetting Manger, Nick Leuty and his staff, without whom the event would not have such happy memories.

It is difficult to adequately express the extent of our appreciation for the continued support of the BRUNSWICK CORPORATION and I can only hope that they realise just how much the sponsorship of the brochure is appreciated.

Wishing all participants the very best of bowling.

A warm welcome from TERRY FAWDINGTON

Once again I have the privilege and the pleasure to be given the opportunity to write this forward for the programme. Last year I started with the comment that it's NATIONALS TIME AGAIN and how time flies, but it seems to me that 1995/6 has flown by even faster.

The Championships taking place in SWINDON at this time of the year provide a warm introduction to spring, after what has been a harsh winter with more than usual snow and ice in most regions, although there is no doubt that whatever difficulties created by the weather the intrepid bowler would remain undaunted, donning boots and warm clothing to compete with dedication and enthusiasm.

This is the 35th BTBA NATIONAL CHAMPIONSHIPS and I am positive the event will continue to produce the high standards of quality bowling that has come to be synonymous with this particular tournament.

The 'youngsters' last year set the competition alight with Paul Delany winning two titles, the Exemdia Team shooting over 3000 to take the money, and so it went on. Watch this space, as they say !

Our industry and sport continues to grow, and each new year brings along new innovative products to make our bowling experience (whatever the level of playing ability) much more an out of home leisure experience rather than just bowling, including new balls to help you improve your game, using the latest technology to help raise those scores. More interactive scoring systems to assist in the recording of score data, and improved storage and retrieval systems to allow you, the player, to get on with the bowling and derive more satisfaction from the simple joy of improvement. In that spirit, ENJOY your bowling, carry that enjoyment through this weekend, use the time to renew old acquaintances and meet and make new friends, have some fun.

May I take this opportunity to wish you all a very successful weekend and if you are one of those who miss out on the prizes and titles this year, come back next year and enjoy the experience of participating all over again. To those of you who do take the honours, well done in advance, you deserve the recognition for your dedication and proven ability.

GOOD LUCK and ENJOYABLE BOWLING

WELCOME

to the

BTBA 1996 NATIONAL CHAMPIONSHIPS

from the

TOURNAMENT MANAGER

As always, I look forward to meeting all bowlers and their supporters, and truly hope that everyone enjoys taking part in the 1996 National Championships. I would also like to take this opportunity to thank the very hard working 'A' Team who give so generously of their time, and spare no effort in endeavouring to ensure all concerned have a successful tournament.

QUANTUM

SOME SAY IT'S DANGEROUS TO MANIPULATE THE LAWS OF PHYSICS. TO OUR CRITICS, WE SAY: EVOLVE OR DIE.

TO CREATE THE EVOLUTIONARY QUANTUM, WE USED THE BEST BRAINS IN THE BUSINESS, COMPUTER-AIDED DESIGN (CAD) TECHNOLOGY, THE HOTTEST RESINS. WE TESTED THOUSANDS OF CORE CONFIGURATIONS, COVER STOCK FORMULATIONS. AND WE CHANGED THE STRUCTURE OF THE GAME. FOREVER.

Quantum features three revolutionary urethane balls, each with a different, computer-designed core configuration for unparalleled performance. And a new, unique dynamic characteristic: Quantum's lightweight balls react the same as the heavier, sixteen-pound Quantum balls. Quantum also offers the widest range of center-heavy to cover-heavy weight characteristics, for every lane condition. While its next-generation reactive cover stock resists tracking and cracking for unprecedented durability.
