FIQ World Bowling Championships

Exclusive on Sky Eurosport

25th March 2000

7pm

***A Warm Welcome
to the
39th National Championships***

What a way to finish a century of great bowling. In December just prior to the new Millennium, the FIQ World Championships in UAE provided 33 records with seven 300 games, bowled over 24,000 games.

So let's get bowling in earnest at these National Championships and see if we can also set new records. We must all get practising as we now have the One Million Dollar Grand Slam contest in October 2000 in Dubai.

Imagine a million US dollars from bowling !!!!!!! Times have moved on in our sport all because of the dedicated bowlers striving to improve their game on a regular basis.

The industry has grown year on year in double digits for the past ten years. Let's all work together and develop our sport to be the showcase of the world.

Brunswick is committed to supporting the development required to produce the highest standards of equipment to enable your personal development and therefore success in bowling.

We all here at Brunswick thank you for your commitment and look forward to a keenly fought contest as well as a great social occasion.

Good luck to you all.

Terry Fawdington.

MD Brunswick Bowling.

A Message of Welcome
from
Pat White
Chairman
British Tenpin Bowling Association

The time between the Nationals seems to become shorter each year, and it is difficult to believe that this event is rapidly approaching its 40th anniversary.

It is however a really pleasure to welcome all participants and their supporters to the 39th National Championships and hope everyone has a successful and memorable weekend.

I would like to take this opportunity to sincerely thank Brunsick for continuing to sponsor our brochure, their support is very highly valued and truly appreciated. As are the efforts of the staff at Lloyds Lanes, Enfield and the A Team who will, without doubt, do their utmost to ensure the comfort and enjoyment of all participants.

The National Council join me in wishing you,

The very best of bowling.

***Welcome to the
39th National Championships
from the
Tournament Manager
Bernie White***

We have had an excellent entry for our Millennium event and I can only apologise to those whose entries had to be returned because due to specific times being required, we were unable to accommodate them.

My sincere thanks to all of the Lloyds Lanes Staff and to my tournament team.

All participants may be sure that we will do our very best to ensure your comfort and enjoyment during the 39th National Championships.

Good luck to you all.

Beware: Entering Riot Zone.™

Designed To Devastate. That's Riot Zone, The Latest Weapon In The Zone Arsenal.

Its Proactive™ coverstock is derived from the powerful Danger Zone Pro™ HPD, pearlized and reformulated to create a DTX-2 traction-rated cover that clears the front part of the lane cleanly while still kicking hard in the backend. With more length and backend than ANY Proactive to date, Riot Zone still retains Proactive's smooth/strong breakpoint, blending out the over/under reactions associated with typical house conditions and shorter oil patterns.

Perimeter Weighting: Think golf. By shifting the weight to the outside of the clubs, it enlarged the "sweet spot" tremendously and made the clubs more forgiving. We did the same thing here. By moving the core weight closer to the cover, the ball pushes through the front end for more length. And it's more forgiving of broken-down heads and less-than-perfect lane surfaces.

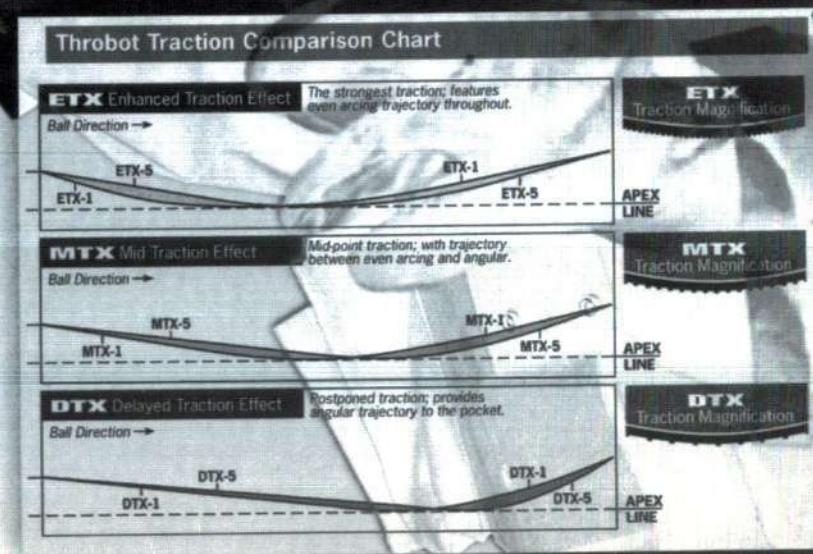

Dual Density Design: Look at the shape. Two large masses. This helps distribute the weight for a more powerful performance. The high-density bottom lobe creates track flare and maintains backend strength.

Riot Zone is shiny out of the box, thanks to the revolutionary new Brunswick Finishing System featuring 3M™ Trizact™ Abrasives developed by 3M and Brunswick. The overall reaction of your Riot Zone can be adjusted by any pro shop using the Brunswick Finishing System. You can even return it to original factory finish and reaction — even after the ball has been tracked up.

Riot Zone. The only pearlized Proactive. The only "perimeter-weighted" core. The only thing you need to incite a Riot.

Riot Zone. Coverstock: Proactive, Trizact Finished •
Traction Characteristic: Delayed Traction Effect (DTX) 2 •
Weights: 10-16 lbs. • Hook Potential: 20-12 (dull/shiny) •
Length: 5 • Backend: 12 • Average RG: 5.8

Traction Characteristics are designed to grip the lane at different points, in different degrees. The concept has caught on as competitors try to imitate Proactive. But no matter what they call it, it's not Proactive. And it never will be.

Brunswick

Loot the lanes.

Riot Zone

The best of Danger Zone[™] HPD plus a pearlized coverstock and totally new core. And more length and backend than ANY other Proactive.[™] You'll love it. They'll hate it. So go ahead, incite a Riot.

Moving the core weight closer to the cover (perimeter weighting) pushes the ball down the lane for medium to drier conditions, and provides a more forgiving reaction when you don't throw the perfect shot.
