**A Warm Welcome  
to the  
BTBA 43rd National Championships**

We have a triple World Champion!

What a great bowling year 2003 proved to be for us, with the obvious highlight of Zara Glover winning her 3 gold, and a silver medal in the 15th WTBA World Tenpin Bowling Championships in Malaysia. The feat of winning the singles, doubles and all events against all comers from every corner of the globe should be celebrated and, is genuinely something for which Zara, and the sport of Tenpin Bowling in the UK can be justifiably proud.

Zara is a member of an exciting new generation of bowlers, both male and female, that has been developing for several years. Bowling International together with Brunswick, look forward to the industry encouraging new generations of such talent aiming for similar standards and achievements for many years to come.

The relationship between Brunswick, Bowling International and our sports governing body, the BTBA, continues to flourish. It is our combined goal to promote our sport and bowling excellence.

Bowling International is now the proud owner of the former Forum Bowl in Coventry. This centre is the first such acquisition and is currently being refurbished. A new centre is planned for 2005 and, several more for the future. We look forward to becoming part of the Bowling Centre operating fraternity, as well as being suppliers of Tenpin Bowling equipment and supplies.

We hope to see you in Coventry in the not so distant future when you may be sure of being offered a warm welcome. In the meantime, all here at Bowling International thank you for your commitment, and we look forward to a keenly fought Nationals, as well as a great social occasion.

Good luck to all, and best wishes for a great tournament.

A message of welcome from

*Pat White*

BTBA Chairman

It is a great pleasure to bring the National Championships back to the Airport Bowl where we have held so many successful events and, welcome all participants together with their supporters.

The Nationals has gained a reputation for its warm friendly atmosphere which attracts bowlers from all over the country and, I have no doubt that the host centre will do everything possible to ensure an enjoyable occasion for all concerned.

Thanks must go to Brunswick and Bowling International for their continued support of Team England and the National's brochure but it is difficult to adequately express our appreciation of their sponsorship which is so very highly valued.

It is on behalf of all members of the BTBA National Council that I wish good luck to each and every bowler and I hope the 43rd Nationals is one of which you will all have good memories.

I would like to take this opportunity, not only to give a warm welcome to all attending the Nationals but also give thanks to the A Team, whose continued support and commitment are invaluable.

# RED HOT PERFORMANCE

Brunswick Ultimate Inferno™

The Ultimate Inferno completes the Inferno line-up with a highly durable Activator® coverstock made for bowlers who prefer Reactive® over particle style performance. It delivers the ultimate match-up on long oily lane conditions with or without carry-down. Clean through the heads, with excellent mid-lane recovery, and a strong, arcing back-end reaction, the Ultimate Inferno sparks explosive pin action.

# KNOCK 'EM DEAD.

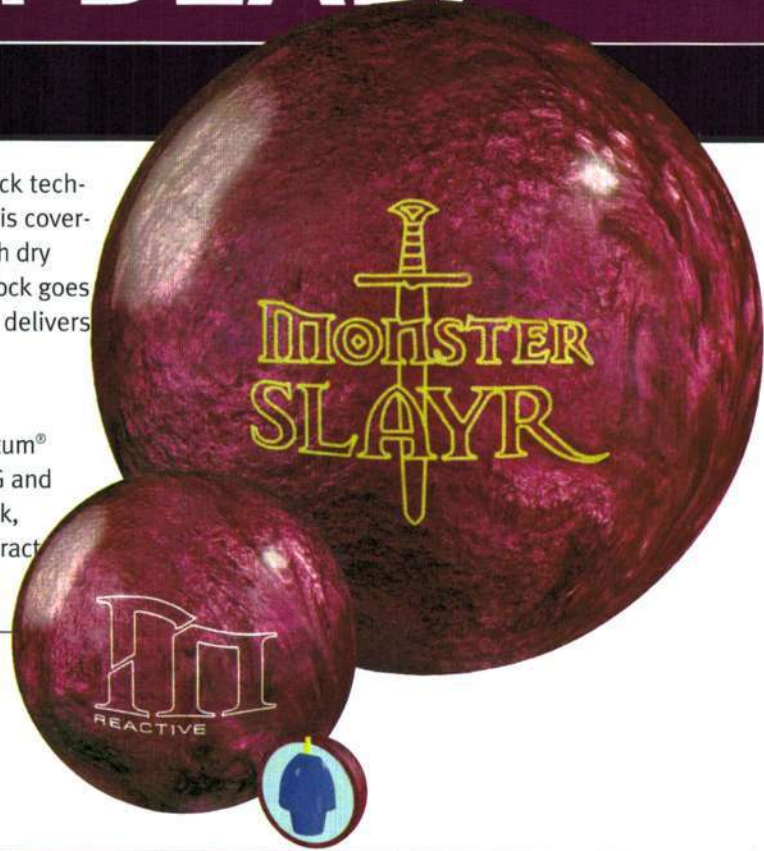

## Introducing the Monster® SlayR™

The Monster SlayR incorporates the latest evolution of coverstock technology with the introduction of the new PowrKoil™ LS formula. This coverstock formula gives the Monster SlayR its killer edge on lanes with dry boards or broken down oil patterns. While the PowrKoil LS coverstock goes significantly longer than comparable Reactive® coverstocks, it still delivers aggressive backend hooking action on the medium-to-dry lanes it was designed for.

The Monster SlayR possesses the proven performance of a Quantum® core shape. This high-density inner core produces low average RG and medium flare potential. Combined with the PowrKoil LS coverstock, the SlayR consistently generates strong down-lane recovery characteristics along with powerful, but predictable, breakpoints.
